Phil's Custom Trout Flies

81 Special

Price per Unit (piece): \$2.00

I named this fly for a day on the Sacramento River during which I caught 81 shad on the same fly. Finally, a large female broke my tippet and swam away with this fly. This pattern is extremely durable. I coat the body with a nail polish to give it added durability and translucence. This fly has been my go to pattern the past several years on the "Sac"!
