

Phil's Custom Flies

Phil's Custom Trout Flies

Rubber Legs Mirage

Price per Unit (piece): \$2.00

A new generation pattern I designed for the Lower Sacramento River. Tied with a Mirage tail that refracts light and almost glows in the water. Also tied with chartruese rubber legs. I like to "tease" shad with a slight jigging motion on the swing. The rubber legs on this pattern that pulsate in the water when you tease them. The combination of the Mirage material and Rubber Legs results in a Shad Fly that is very effective. Give it a try.
