

Phil's Custom Flies

Phil's Custom Trout Flies

Peacock and Pheasant

Price per Unit (piece): \$1.90

An all around nymph that will produce fish in lakes or streams. The pheasant and Peacock nymph is a version of the pheasant tail. I like this fly because the peacock just makes it look "buggy", while the pheasant tail brings in the color of many, many different mayfly nymphs. I rib the fly with copper wire to add to its durability.
