

Phil's Custom Flies

Phil's Custom Trout Flies

Copper John

Price per Unit (piece): \$1.90

When I first ran into the Copper John it was one of the hottest patterns going, and I passed it off as a fad. But after using this pattern on a number of my home waters, I quickly realized this fly catches fish! The bead head coupled with the copper wire body helps sink this fly exceptionally fast and ensure you're fishing where the fish are.
